0 - Trendy Textures for Modern Bathrooms

Texture is a fantastic way to add depth and sophistication to a bathroom without overwhelming the space. One trend I love right now is using 3D tiles, which create subtle shadows and visual interest—think tiles that have raised patterns or geometric shapes. Another cool option is textured porcelain or stone tiles that mimic natural surfaces, like wood or cement, to give a rustic yet contemporary feel. If you're going for something sleek and modern, consider large-format tiles with a matte finish, as they create a smooth, almost seamless look that feels luxurious. When it comes to making sure these textured tiles are installed correctly, Dream House Tile <https://dreamhousetile.ca/> offers a top-notch tile installation service in Toronto and the GTA. Their team has the expertise to handle even the most intricate designs, ensuring your bathroom looks perfect and is built to last!
