Chapter 0 - TUBAL EVALUATION 2

0 - TUBAL EVALUATION

For all infertility patients, tubal evaluation is an essential strategy as it outlines the internal conditions of the uterus's shapes, functions, and associated infertility factors like blocked/damaged fallopian tubes, endometriosis, fibroids, etc. Tubal factor is responsible for infertility in 35-40% of cases. There are recently developed advanced tests and imaging techniques to evaluate fallopian tubes. The fertilityworld is the top fertility clinic offering precise and guaranteed tubal examination procedures.
