Chapter 0 - ENDOMETRIAL RECEPTIVITY ANALYSIS (ERA) 2

0 - ENDOMETRIAL RECEPTIVITY ANALYSIS (ERA)

In females, the endometrial receptivity acts as the entry gate and receives the “cultured-ART hatch embryo” in the uterine lining. Once the embryo gets aligned to the uterine cavity through endometrial receptivity, the implantation is ensured and results in pregnancy. Endometrial Receptivity Analysis (ERA) identifies the conditions of the endometrial receptivity before transferring the embryo to the uterus. The Fertilityworld is the top clinic that offers ERA at a reasonable cost with experienced doctors available to give you the best results.
