This is the fully translated US intro to "Neon Genesis: Eangelion" in the form of a poem. I even have a link to a site that will play the full song automatically. PLEASE COMMENT ON THIS.

A Thesis of the Cruel Angel

By: Neko Oikawa

Like an angel without a sense of mercy

Rise young boy to the heavens as a legend

Cold winds, as blue as the sea

Tear open the door to your heart

But unknowing you seem, just staring at me

Standing there smiling serenely

Desperate for something to touch

A moment of kindness like that in a dream

Your innocent eyes as yet have no idea

Of the path your destiny will follow

But someday you'll become aware of

Everything that you've got behind you

Your wings are for seeking out

A new future that only you can search for

The cruel angel's thesis bleeds

Through a portal like your pulsing blood

If you should betray the chapel of your own memories

The cruel angel will enter the window of your soul

So boy, stand tall and embrace the fire of legend

Embrace the universe like a blazing star!
